ARE YOU ENROLLED IN VA HEALTH CARE?

VA health care and eligibility has expanded for Veterans with toxic exposures and Veterans of the Vietnam, Gulf War, and Post-9/11 eras.

Exposure registries are based on health exams for each cited environmental exposure. VA's health registry evaluation is a free, voluntary medical assessment for Veterans who may have been exposed to certain environmental hazards, and registry data helps VA understand (and respond to) environmental health problems more effectively. Adding your information to these registries does not create a compensation disability claim.
